

Warranty Terms and Conditions for Therapy Pod

Indoor Installation Requirement - Unless explicitly stated as designed for outdoor use, the Therapy Pod must be placed in an indoor environment. If it is placed outdoors or in areas exposed to direct sunlight, moisture, rain, or any form of water ingress, the warranty will be rendered void. All electronic components, including controls, wiring & heaters must remain dry and protected from water or liquids at all times.

What the Warranty Covers - This warranty applies to manufacturing defects in materials or workmanship that occur under normal use. Coverage begins from the date of purchase listed on your original invoice and applies only to the original purchaser. It includes mechanical components, the structure of the frame, the infrared heating elements, and electrical components such as control systems. All warranty claims must be pre-approved in writing and supported by a copy of the original invoice.

What the Warranty Does Not Cover - This warranty does not extend to damage caused during shipping, delivery, or installation. It excludes problems resulting from misuse, abuse, accidents, neglect, improper usage, or installation that does not follow the instructions provided in the user manual. Damage caused by weather conditions such as lightning, rain, or excessive humidity is not covered. The warranty is void if the product has been altered or modified, or if repairs have been performed by an unauthorized technician.

Zua Health will not be responsible for damages arising from incorrect electrical voltage, power surges, or fluctuations. Use of unauthorized accessories, parts, or equipment in conjunction with the sauna, or failure to follow cleaning, maintenance, and environmental guidelines outlined in the owner's manual, will also void the warranty.

Cosmetic wear and tear such as dents, scratches, stains, or scuffs on the wood, which are common with natural materials and regular use, are not covered as they do not impact the function or structural integrity of the sauna. Consumable parts, including light bulbs, are excluded from coverage.

Liability and Limitations - Zua Health shall not be liable for any incidental or consequential damages, including but not limited to the loss of Therapy Pod use, personal injury, or property damage. Under no circumstances will Zua Health or its representatives be held responsible for injury to persons or damage to properties resulting from improper use or maintenance of the sauna.

Service, Repairs, and Shipping Responsibility - Labour is not included under the warranty. Replacement parts will be sent directly to the customer. In the event of a valid claim, replacement parts will be provided directly to the customer. Only service technicians authorized by Zua Health may perform warranty repairs unless prior written approval is given. Any unauthorized servicing or installation will void the warranty.

This warranty is only valid for the original purchaser and is not transferable under any circumstances. Claims must be submitted via email and approved in writing before service or replacement is provided.
